25X1A

1. In the middle of [REDACTED] a fenced-in area with a front about 1,500 meters long was observed on the road from Miradec Kralove (50 13 N - 15 50 E) to Novy Miradec, Czechoslovakia. The area was about two kilometers out of Miradec Kralove; it was about 250 meters distance from the highway. In the middle of the fence there was a six-meter-broad gate through which ran a road which connected the area with the state road. The wood fence was about three meters high. In the corner of the area near Miradec Kralove, a watch tower was located; it was about two meters by two and seven meters high. No guard was observed outside the fence. A resident of the area stated that the installation was a radar station.

25X1A

2. [REDACTED] a one-story triangular tower as noticed about 40 meters to the northwest away from a tourist house in Frydant (49 35 N - 18 21 E). An inhabitant of the town stated that the tower was a radar installation; it was surrounded by a two-meter high fence. In the same area south of the tower there was a wooden barracks in which about 30 Czech Air Force personnel were quartered. A guard patrolled outside the fence with a dog.
3. During the third quarter of 1952 four garages and a 30-meter high tower were observed in Masarykova Ctvrt near Brno, about 300 meters south of an ANB caserne that was formerly called Dusilova kolej; the area in which the garages and the tower are situated was about 30 by 50 meters in size. The tower is built of pipe and is painted red and white. The area is enclosed by a wire mesh fence and is believed to contain a radar tower.
